Somebody's knocking at my door
(Who could it be)
It's a quarter after four
I throw my covers off
Start walking down the hall
And open up the door (woah...)

I see you standing in the rain
(You say to me)
Baby I made a big mistake
I don't love her
I want for us to work
Give me another turn
I looked him straight in the eyes
And I said

Don't come any closer
Can't cry on my shoulder
You just gone have to live with the choice you made
What we had was over
The second you chose her
So don't come any closer

I see the twinkle in your eye
(Yeah)
And I start thinking that it might
Not hurt to let you in
Let you touch me again
And fell what I've been missing (oh woah...)

Then I remember how it felt
When you gave your love to someone else
I can't do that to her
That pain no one deserves
Then I built up the nerve

To look you right in your eyes and say

Don't come any closer
Can't cry on my shoulder
You just gone have to live the choice you made
What we had was over

The second you chose her
So don't come any closer

No you can't come in
That's all in the past
Maybe you should just go back to her
Don't ask for a kiss
Don't try to hold my hand
I just can't go back there again no
(No woah...)

So i look you right in your eyes and I say

Don't come any closer
Can't cry on my shoulder
You just gone have to live with the choice you made
What we had was over
The second you chose her
So don't come any closer

Don't come any closer
Can't cry on my shoulder
You just gone have to live with the choice you made
What we had was over
The second you chose her
So don't come any closer
