Don't turn off the lights now!  
Don't turn off the lights now!

I know we haven't been getting along, long at all,  
I don't think that it's time.  
You and I can give in  
Just call, call it off  
I don't wanna say goodbye  
Cause just when I think we're through  
The memories come flooding back  
It's like instantly I love you like that  
I was on fire for you  
We could get it back again  
If you don't say it's the end, the end

So don't turn out the lights now, lights now, lights  
now  
Cause in a minute we'll be feeling like never before  
We'll light up the night now, night now,  
Right now  
I'll be whatever you need and more  
So don't turn out the lights now  
Don't turn out the lights now

I'll give you a minute to clear, clear your head  
Take the rest of the night, yeah  
Take your time  
You're gonna see that it's empty without me in  
your bed  
Baby, you'll change your mind  
Cause just when I think we're through  
The memories come flooding back  
And instantly you love me like that/right back?  
I still got the spark for you, we can get it back again.  
If you don't say it's the end, the end

So don't turn out the lights now, lights now, lights  
now  
Cause in a minute we'll be feeling like never before  
We'll light up the night now, night now,  
Right now  
I'll be whatever you need and more

So don't turn out the lights now  
Don't turn out the lights now

We're down to the wire  
We gotta let go and take a chance  
I'll take it higher  
Till the end, till the end, till the end YEAH! Yeah  
Hey!

So don't turn out the lights now, lights now, lights  
now  
Cause in a minute we'll be feeling like never before  
We'll light up the night now, night now,  
Right now  
I'll be whatever you need and more  
So don't turn out the lights now  
Don't turn out the lights now

Cause in a minute we'll be feeling like never before  
We'll light up the night now, night now,  
Right now  
I'll be whatever you need and more  
So don't turn out the lights now  
Don't turn out the lights now  
So don't turn out the lights now  
Don't turn out the lights now
