sometimes you gotta hit rock bottom
before you wake up
hit when you're at your lowest,
thats when you know its what youre made of
suddenly i feel stronger than i ever
was before and i know what im worth,
you dont deserve me
it took a minute but i finally got the courage,
yea to say i dont want you
around, im walking out ah

Chorus (Patrick Stump):

feet dont fall me now, ive got to keep moving
and i cant stand to stand around, am i coming or going
feet dont fall me now, ive got to keep moving
and to stand around, am i coming or going
walk away

one day you wake up and love aint
enough of a reason to stay
we look at one another like total

strangers going nowhere
suddenly i am stronger than i ever
been before,
was before and i know what im worth,
you dont deserve me
it took a minute but i finally got the courage,
yea to say i dont want you
around, im breaking out ah

Chorus

it's over and we know it, theres no
one now for me to stay
im tired of pretending, so im gone today
im gone today

Chorus
