### Verse 1

I didn't know what it meant to be alone  
I didn't know 'till the day you've gone, that I could ever  
feel this miserable, without you here with me  
But now I'm standin lookin in the mirror  
Wonderin whatever happened to our love  
Deep down I thought that there would always be an us  
Since you disappeared I know,  
That time wont wait for no one  
You gotta say what you want  
If you where here with me now  
I'de tell you your the one  
Coz your the closest thing to an angel, that I've ever  
met  
So don't you worry, I'll never forget you

### Chorus

Although you can't be here by my side  
I feel you near me, when I close my eyes  
So I wont let your memory come to an end  
Coz when I said forever, that's just what I meant  
Forever yeahh  
Forever yeaah  
Always in my heart forever

### Verse 2

Now every moment I'm imagining your face  
And all the silly little things you used to say  
This is the pain that I can barely tolerate  
Never thought it'd be this rough  
Now when I smile infront of people it's a fake  
Coz deep inside I'm cryin for my baby  
It's gonna be a while before I'm ok  
Coz now that your gone I know,  
That time wont wait for no one  
You gotta say what you want  
If you were here with my now  
I'de say that your the one  
Coz your the closest thing to an angel, that I've ever  
met  
So don't you worry I'll never forget you

Chorus

Although you can't be here by my side  
I feel you near me, when I close my eyes  
So I wont let your memory come to an end  
Coz when I said forever, that's just what I meant

Bridge

Wont let nothin come between us  
No matter how long or how hard it gets (oohhh)  
Don't you know you are the reason  
That I walk, I breathe, I liivveeee so...

Chorus

Although you can't be here by my side  
I feel you near me, when I close my eyes  
So I wont let your memory come to an end  
Coz when I said forever, forever's what I meant  
Forever yeahh  
Forever yeaah  
Always in my heart forever

Forever's what I meant

Forever

Forever

Always in my heart forever
