I was ready to throw in the towel
Came this close to cutting you out
I said i'd had enough, I tried to break free
Then you saw that i had one foot out the door
That's when you turned up the charm a little more
And i felt your hands all over me
Everytime i try to leave

That's when you get through
And i start to fall
That's when hell breaks loose
I can't fight it off
Now i'm goin under (I'm sinking fast)
Under (I'll never last)
Under (I got it bad)
For you i'm goin under

I, I really hate that you know what it takes
To get under my skin and make me stay
Feels like i'm locked up with invisible chains
We both know your me telling lies (your telling lies)
We both know that you don't treat me right (treat me right)
If i could, I would leave you tonight (tonight)
But that's when i feel your hands all over me
There's no way to leave

That's when you get through
And i start to fall
That's when hell breaks loose
I can't fight it off
Now i'm goin under (I'm sinking fast)
Under (I'll never last)
Under (I got it bad)
That's when you get through
And i start to fall
That's when hell breaks loose
I can't fight it off
Now i'm goin under (I'm sinking fast)
Under (I'll never last)
Under (I got it bad)

We both know your telling lies
We both know you aint treating me right
If i could, I would leave you tonight
But i'm goin under everytime

That's when you get through
And i start to fall
That's when hell breaks loose
I can't fight it off
Now i'm goin under (I'm sinking fast)
Under (I'll never last)
Under (I got it bad)
That's when you get through
And i start to fall
That's when hell breaks loose
I can't fight it off
Now i'm goin under (I'm sinking fast)
Under (I'll never last)
Under (I got it bad)
I'm goin under
I'm goin under

I'm sinking fast...
I'll never last...
I got it bad...
Im goin under
