I finally decided to kiss this good-bye
I won't ever leave my heart in your hands
These tears are the last one that I cried
Over some stupid man
You showed me the dark side of love
If I could undo what you've done

There'll be love, there'll be joy, there'll be sunshine
There'll be arms wrapped around me the whole night
Another touch of a real man
My dreams would come true
If I, if I, if I never met you
If I never met you oh babe

So I packed up the memories
They're all by the door
Along with all the gifts that you gave
No words you can tell me
I've heard it before
So there's nothing left that you can say
I'm sick of the dark side of love
If you would never show up

There'll be love, there'll be joy, there'll be sunshine
There'll be arms wrapped around me the whole night
Another touch of a real man
My dreams would come true
If I, if I, if I never met you

Nothing but gray skies
[?]
And broken promises
That's all you gave me
With your lazy, shady, crazy fashion of love
But... I need love, I need joy, I need sunshine
I need arms wrapped around me the whole night

There'll be love, there'll be joy, there'll be sunshine
There'll be arms wrapped around me the whole night
Another touch of a real man
My dreams would come true

If I, if I, if I never met you
If I never met you
If I never met you
