Oh, wohoh  
(Let me tell you 'bout a shawty i met, yah)  
Oh, wohoh  
(The body so sick, yeah)  
Shawty got a 5 year plan, tryna make enough dough to  
put herself thru college  
Only tryna stay one year till she graduate then she say  
that she gon' stop it  
We started to talk while she was on her break  
I bought her a drink and told her sit next to me  
I said  
You're the baddest chick that I've seen here in a minute  
I like your plan, but baby tell me, where I fit in

[Chorus:]

Uh but, before I could get her name, she was back on  
the stage  
Rockin' that pole, she got skills fo' sure  
I must have really liked her  
'Cause i was the last to leave  
Man I tell you I stayed till that club closed  
Turned away for a second and my shawty was gone  
Anybody out there seen here  
She about 5ft 6 in red stilletos  
Definately know when you meet here  
'Cause she got caramell skin and legs forever  
Anybody out there seen here, damn  
That their one is a keeper  
Tell me have you seen here (ohwo), tell me have you  
seen here (ohwo)

Shawty got a lil shawty at home, goin thru the 1st  
grade, that she gotta take care of  
Raisin' him all by herself cuz her daddy ain't there, one  
day he got fed up  
She claim that she wont be doin this much longer  
'Cause what dont kill ya, makes ya stronger  
I said  
what you need now is a guy like me  
Guranteed i can make your life better, howho

[Chorus:]

Uh but, before I could get her name, she was back on  
the stage  
Rockin' that pole, she got skills fo' sure  
I must have really liked her  
'Cause i was the last to leave  
Man I tell you I stayed till that club closed  
Turned away for a second and my shawty was gone  
Anybody out there seen here  
She about 5ft 6 in red stillettos  
Definatly know when you meet here  
'Cause she got caramell skin and legs forever  
Anybody out there seen here, damn  
That their one is a keeper  
Tell me have you seen here (ohwo), tell me have you  
seen here (ohwo)

listen

I (I) think I might  
Just have seen the girl of my dreams  
When I went out tonight  
Why'd she have to go away (why'd she have to go  
away)  
Now when I close my eyes  
All I can see is her frame in front of me  
Damn her body's movin' in my mind on repeat  
I bet she just dont know what this is doin to me, ohoo

[outro 2x:]

Anybody out there seen here  
She about 5ft 6 in red stillettos  
Definatly know when you meet here  
'Cause she got caramell skin and legs forever  
Anybody out there seen here, damn  
That their one is a keeper  
Tell me have you seen here (ohwo), tell me have you  
seen here (ohwo)
