

## Claude Kelly "Light On"

Visit "[Light On](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Dont turn the light on x3  
I can better go, through this night alone  
Dont turn it on, on, on x3  
I can better go, through this night alone

Dont wanna believe it  
i'm still on the ceiling  
pinch me if im dreaming  
but i feel blown  
I dont want no sunrise  
I dont want no blue skies  
I dont want it, if it means your gone  
Sit down, im out, im down for the count  
if it means your gone  
so lay down, believe i need ya around now

Dont turn the light on x3  
I can better go, through this night alone  
Dont turn it on, on, on x3  
I can better go, through this night alone

Damn your shit is magic  
from another planet, i just wanna grab it  
i made you my habbit, now im like an addict  
cant stand it, if it means your gone

sundown, im out, im down for the count  
if it means your gone  
so lay down, believe i need ya around now

Dont turn the light on x3  
I can better go, through this night alone  
Dont turn it on, on, on x3  
I can better go, through this night alone
