Hey babe
let me tell you little something 'bout me
I don't, believe in seeing pretty women only
So when the tears are fallin'
you had enough, remember baby you can call me
You know it
You know it

'cause I can't - just walk by pretend I don't see
You're hurting and I mean, you can put that on me
and I'll be here to listen, so take your time
and tell me whenever you're ready
You know it
You know it

See a girl like you
should be told everyday that she's special
Because a girl like you
so beautiful you won the next level
Yeah, a girl like you need a man that's gonna make her
life better
A girl like you, you should be, be with a, guy like me

2x
I think a girl like you, you, you
Could use a man like me, me, me
I think a girl like you, you, you
Is just a VIP,P,P

Don't feel guilty
if you wanna sample my love
It's OK - It only means you ain't getting it enough
I guess you ain't been treated the way you need
I'm here and I ain't in no rush
So open up, your heart to me
It's all about you and girl...

See a girl like you
should be told everyday that she's special
Because a girl like you
so beautiful you won the next level
Yeah, a girl like you need a man that's gonna make her

life better
A girl like you, you should be, be with a, guy like me

2x
I think a girl like you, you, you
Could use a man like me, me, me
I think a girl like you, you, you
Is just a VIP,P,P

Give me your Love, hey
Give me your Love, hey
Give me your Love, I want it
Promise I won't
Promise I won't
Promise I won't ignore it
Give me your Love, hey
Give me your Love, hey
Give me your Love, I want it
Girl like you, you should be, be with a, guy like me

2x
See a girl like you
should be told everyday that she's special
Because a girl like you
so beautiful you won the next level
Yeah, a girl like you need a man that's gonna make her
life better
A girl like you, you should be, be with a, guy like me

2x
I think a girl like you, you, you
Could use a man like me, me, me
I think a girl like you, you, you
Is just a VIP,P,P
