Isn't it always perfect at the start?
Isn't it the best damn thing that you've felt in your
heart?
Doesn't everybody say we will never part?
Well I'm no different, never thought love was this hard

Till' the rain starts to pour down
And it makes me wanna call out

Stop this train I wanna get off
There's no way I can carry this off
Let me off
I don't wanna ride with love anymore
Let me off
It's too much for my heart to endure
Let me off

Isn't it crazy how day turns into night
Isn't it crazy how things can be going so right
And all of a sudden you're going way to fast
lost control of the wheel and there's no way to get back
'Cause the rain starts to pour down
And it makes me wanna call out

Stop this train I wanna get off
There's no way I can carry this off
Let me off
I don't wanna ride with love anymore
Let me off
It's too much for my heart to endure
Let me off

Stop this train I wanna get off
There's no way I can carry this off
Let me off
I don't wanna ride with love anymore
Let me off
It's too much for my heart to endure
Let me off
