Get Nervous...Get Nervous

Get Nervous...Get Nervous

Get Nervous...Get Nervous

Get Nervous...Get Nervous

Get Nervous...Get Nervous

I feel a little shaky, I can't control my nerves

I know you think I'm fakin', but can't you feel the curves?

I swear to you I feel it, it scares me half to death

It gathers in my throat and it gathers up my breath

Anxiety - Got me on the run

Anxiety - Yeah, I just need someone

Anxiety - Can't get nothin' done

Anxiety - Spoils all the fun

I'm picking up the telephone, there's no one I can call

I need somebody bad tonight, can't find no sleep at all

I wish I could relax, I just can't stop my mind

I wish I could collapse but my body's not that kind

Anxiety - Got me on the run

Anxiety - Yeah, I just need someone

Anxiety - Can't get nothin' done

Anxiety - Spoils all the fun

Can't you hear my heartbeat, hear the way it sounds?

Can't you hear my heartbeat, Y' hear the way it pounds?

Just give me somethin' to slow it down, Yeah

Sometimes in the city, sometimes in my car

I pound on the windows like a bee inside a jar

Anxiety - Got me on the run

Anxiety - Yeah, I just need someone

Anxiety - Can't get nothin' done

Anxiety - Spoils all the fun

Anxiety - Got me on the run

Anxiety - Yeah, I just need someone

Anxiety - Can't get nothin' done

Anxiety - Spoils all the fun
