"Let's Stay Together"

Visit "[Let's Stay Together](#)" on MotoLyrics.com

People walkin' round all lost and confused
Ready to throw their lives out in the gutter
Ain't no love between 'em, father to son, man to
woman, brother to brother
You and me we move in opposite directions
Like two spheres on their separate planes
Ain't nobody loved me better than you done
So why can't we just find a way to (ooh) stay together

Chorus:

Let's stay together, life's too hard to make it all alone
And peace and harmony don't come in packages with
bows
And true love ain't somethin' you find layin' around
Don't you know, let's stay together

Let's stay together

Mothers don't you turn your backs on your children
Children don't you leave the family
Ain't no point in livin' life all by yourself
So why can't we just find a way to (ooh) stay together

chorus repeats 2x

Let's stay together (repeats)
