Can you see the veil, you can feel the heat

You're upon the noose, I'm wild in the streets

I'm under the lights and neither won't have to hide to
meet

If

Chorus:

You got love in its place, in its own time and space

You got love in its place in your little paradise

You got fashion secured in your own little world

Life without your _masoradius_ grants for suicide

But... chorus - little paradise

(Instrumental break)

chorus repeats 2x

Little paradise (repeats out)
