Never could say what I wanna say, never could do what  
I wanna do

Never could believe you

If it's true, never could, never would, you make it so  
hard

I never wanna leave you

I'm always right, you're never wrong

We change the tune but not the song, over and over

'Til it's done it's never done, never done, you make it  
so hard

I never wanna leave you

I never wanna leave you

Movin' together, down in the park, you're what I need,  
I'm what you want

Never could refuse you from the start

Never could, never would, never could, you make it so  
hard

Never could say what I wanna say, never could do what  
I wanna do

Never could believe you

If it's true, never could, never would, you make it so  
hard

I never wanna leave you

I never wanna leave you (repeats 11x)

I never wanna
