"Temporary Heroes"

Visit "[Temporary Heroes](#)" on [MotoLyrics.com](#)

I've seen all the downfalls, temporary heroes, whoa

Misguided direction, longing for perfection, whoa

Chorus:

Love and pain, only for the foolish

Once again, try to hide what's there inside

I'm the same temporary hero, who's to blame

Rituals and movements, much too soon improvements

(Hide many scars) others and ours

Too late to discover this untainted love is (destined to
be) a sad memory

(chorus)

(Solo)

So you take your chances, watchful of the glances, but
don't turn away

Though the wounds are healing, don't tell me the
feeling's the same

(chorus repeats out)
