Your love's contagious, one kiss is dangerous

But I have more to risk, than you to lose

I feel passion growing I know that love is only

Just one inch away, from striking us

We live for love; we live for love

When we get tired, and watch the summer fade away

Will you think of romance, what will we do?

Is there a place where we can go?

Where time stands still for those who know?

Till eternity we'll fulfill our desires

We live for love; we live for love

We live for love; we live for love

I never planned to win the race

But you convinced me face to face

There was never a chance of losing at all

We live for love; we live for love

We live for love; we live for love

We live for love; we live for love

(to fade
