I know the answers to the questions in your mind
I've been to the places that you couldn't even find
I seen all the things you never thought you'd get to see
I've been everyone you couldn't be
I've read all the stories and I know how they end
I've fixed all the broken things that you couldn't mend
I've taken all the chances that you never even took
And I've found the things you overlooked
I'm the answer to your questions, I believe when you're
in doubt
I'm based on a rumour, I'm spread by word of mouth
There's no proof of my existence I'm a myth that you
arouse
I'm your life and religion, your faith and your hope
Your drug and your addiction your injection of dope
I've met all the people that you never dared to meet
I've played all the games of life and never once been
beat
I've walked upon the water without even getting wet
And there's not a thing that I regret
I've done everything that's wrong and made it right
again
I've talked to all my enemies and turned them into
friends
I've been crucified and resurrected from the dead
Do you believe a single word I've said?
I'm the answer to your questions, I believe when you're
in doubt
I'm based on a rumour, I'm spread by word of mouth
There's no proof of my existence I'm a myth that you
arouse
I'm your life and religion, your faith and your hope
Your drug and your addiction your injection of dope
I'm everywhere and nowhere I'm your saviour when you
sin
I'm your great escape to higher ground when you give
in
I'm everybody's scapegoat I'm a glimpse of clarity
Would you sacrifice yourself for me?
