Hello you shady lane
I wave my flag again
Let Venus shine a light tonight

So far away from home
A pocket full of stones
Is anybody here to shine

Rock me girl - now - Rock me girl
I shot the moon - I shot too soon - bang bang
Rock me girl
Rock me boy - Rock me boy
I let you in my little world and shine
Rock me boy

On medicine you fly

Red rockets in the sky
The world is flat and so am I

You're just one click away
In heaven there's no shame
The sky is full of holes tonight

Rock me girl - now - Rock me girl
I shot the moon - I shot too soon - bang bang
Rock me girl
Rock me boy - Rock me boy
Wade along my little world and shine
Rock me boy
