Stay away, I don't know where I'm standing, a dead
dog, feel alright
I get it on, I need a face to laugh on but that is more of
the same everynight
Sugarlite blond, sugarlite blond
They say my bones are the one understanding, I go
down in the rear
You got me crawling to my heart's surrender
The state of phase you brought me in, you're no good
You got me howling at the moon tonight, understood
You got me howling at the moon tonight, hear me say
You got me howling at the moon tonight, come on babe
You got me howling at the moon tonight, just stay and
get your way
Sugarlite blond, sugarlite blond, sugarlite blond
You're my sugarlite blond
You got me howling at the moon
Sugarlite blond, sugarlite blond, sugarlite blond
You're my sugarlite blond
Stay away, I don't know where I'm standing, a dead
dog, feel alright
I get it on, I need a face to laugh on but that is more of
the same everynight
You're no good, sugarlite blond, sugarlite blond,
sugarlite blond
You're my sugarlite blond
Sugarlite blond, sugarlite blond, sugarlite blond, you
got me howling at the moon tonight
You're my sugarlite blond
