She called me gombo, she did, nothing no more, sweet
operator
Could you get me more, gotta live on a side of a sinner
cause I love a dancing break
Don't date a trick colour, sweet addiction
Why could you get me more, more soul affliction
Give me vibration, give me vibration
Gotta live on a side of a sinner cause I love a dancing
break
You got me on my knees, hallalujah, sweet hardcore
angel
Why could you get me more, give me vibration, give
me vibration
Gotta live on a side of a sinner cause I love a dancing
break
Gotta live on a side of a sinner cause I need to feed my
brink
I feel vibration flowing down my inner soul
I feel a rhythm, maybe the rhythm of love
Give me vibration, give me vibration, give me vibration,
give me vibration
Gotta live on a side of the sinners cause I need to feed
my brink
I feel vibration flowing down my inner soul
I feel a rhythm, maybe the rhythm of love
Give me vibration, take me for a ride
Give me vibration, take me for a ride
Give me vibration, take me for a ride
Give me vibration
