Do you know how it feels to be down in the dirt  
With a bullet in your breast and blood on your shirt?  
Lying in a bloodpool,down a pit...  
Covered with the corpse and the blood and the shit!!!

How does it feel to have a gun at your head  
When you know that you'd be much better off dead?  
Looking right down through the barrel of a gun...  
Don't try to tell me that you think it's fun!!!

Prayin' for your mercy,don't say you see the light  
What difference does it make if the good lord's right?  
At the end of the war,the survivors are none  
Because a war is a loss...a war can't be won!!!

You're just another soldier and you're doing the dyin'  
You're a symbol of a nation...so,boy,stop crying.  
Hero of a war,such a man so brave  
A medal's worth nothin' when you're lyin' in your  
grave!!!

(chorus:)

Do you know the pain...marching into history,marching  
into war?  
Can you feel the shame...marching into misery?you  
function as a whore!!!  
Do you know the pain...marching into history,marching  
into war?  
Can you feel the shame?

War...fair!!!...war...fair!!!...

5 o'clock in the morning and they shout out your name  
But they don't...really care,'cos you all look the same.  
Now this...is the army,and we train to kill  
Our job is to give you that fighting...will!!!

So,get off your knees and stand straight like a man  
Do I have to tell you twice to make you understand?  
Freedom has a price,and that price is blood  
So chase the motherfucker right down in the mud!!!

(chorus:)

War...fair!!!...war...fair!!!...war...fair!!!...war...fair!!!...

Ignore all your feelings, just go all the way  
'Cause if you don't, then death...is the price you have to  
pay.

This ain't peace and love, no, man, this is war!  
So don't...even ask what you're fightin' for!!!

Just search and destroy, never question a lie  
You don't...wanna bite the bullet, boy, you don't wanna  
die.

Don't try to tell me that you couldn't kill a man  
That's a load of fucking bullshit, boy, I know you can!!!

(chorus:)
