Ben Christophers
"Good Day For The Hopeless"

Let me find it in my head
Me, I'm hazy hesitatin' instead

I only find sense in the wilderness
Dialing zeros to operate my mind
I only find sense in the chaos
Dialing out to get away from here

What a good day for the hopeless
So I'm lazy, yes, I'm down
What a great day, what a good day
There's no one else around

The highway drones like belly aches
All these roads bend, deviate

I only find sense in the wilderness
Dialing zeros to operate my mind
I only find sense in the chaos
Dialing out to get away from here

I only find sense in the wilderness
Dialing zeros to operate my mind
I only find sense in the chaos
Dialing out to get away from here, get away from here

What a good day for the hopeless
So I'm lazy, yes, I'm down
What a great day, what a good day
And there's no one else around

What a good day for the hopeless
So I'm lazy, yes, I'm down
What a great day, what a good day

What a good day for the hopeless
So I'm lazy, yes, I'm down
What a great day, what a good day
And there's no one else around
