Dancing fever, dancing fever

There's a party at the club tonight
There's a fever that won't stop tonight
Everybody there is swinging round the stand
Everybody there is waiting for the band

[CHORUS]

They've got the dancing fever, ah ah
They've got the dancing fever, ah ah
The band will play all night
And everybody feels alright
The dancing fever, ah ah
They've got the dancing fever, ah ah
The band is at their best
And no one takes a rest

They are dancing to the melody, so sweet
There is no one to resist the happy beat
At night, there is some magic in the air
All the people at the club, they don't care

[Repeat CHORUS 2x]

Dancing fever, dancing fever
Dancing fever, dancing fever

Dancing fever, dancing fever
Dancing fever

They've got the dancing fever, ah ah
They've got the dancing fever, ah ah
They've got the dancing fever, ah ah...
