Embrace the child in you don't hesitate to let him shine  
It takes a laugh or two go with your heart and free your  
mind  
Don't try to be adult it doesn't lead to anywhere  
It's no one else's fault your own emotions make you  
scared

Just face the fool in you and let that sucker slip on out  
Don't try to play it cool that's not what life should be  
about  
It only takes a smile and suddenly you've dropped your  
guard  
And made another friend it doesn't have to be so hard

Breakout, embrace the child inside you  
Take off that mask and show your face  
Breakout and face the world around you  
Wake up and cut straight to the chase

You're chasing waterfalls instead of racing up the  
stream  
Just make the most of life and live out all your wildest  
dreams  
Just let the fuckers out let go of everything you've got  
Instead of wasting time by being someone that you're  
not

You're place is here and now don't let nobody grind  
you down  
You can't be ridiculed don't be afraid to be a clown  
Let go of all your pride and find your way down to the  
core  
A stuck up attitude turns you into a crashing bore

[Chorus]
