"Easy Way Out"

Introspection, self perfection
Are you scared of your reflection?
Suicide is no solution
Try to make your contribution

Don't believe in resurrection
You won't find the lost connection
Life is only what you make it
So decide if you can take it

There is no easy way out
There is no easy way out
There is no easy way out

There is no easy way out
There is no easy way out
There is no easy way out

Do you like the situation?
Can you take the penetration?
When you've made your reputation
Take care of your own frustration

Life is hard don't make it worse
Don't tell me your life's a curse
You can't regret the choice you've made
If you decide what chords are played

There is no easy way out
There is no easy way out
There is no easy way out

There is no easy way out
There is no easy way out
There is no easy way out

Can you feel your own frustration?
Can you grip the situation?
Do you feel determination?

Do you feel the suffocation?
Do you feel the sterilization?

Do you feel the strangulation?

Don't say that you don't want to live your life anyway

Don't say that you can't take another day

Don't say nobody cares about you anyway

Do you know what your friends would say

There is no easy way out

There is no easy way out

There is no easy way out

There is no easy way out

There is no easy way out

There is no easy way out
