They're out get me I can't escape 'cos they won't let me They won't forget me They'll get me in their grip and sweat me

They'll wait me out And then move in under my skin They'll make me doubt They're out to make me let them in

I can't escape them There's nowhere I can run and hide Make one mistake and That's when they work their way inside

They'll try and take me They'll break me down and suck me dry I can't let them shape me They'll make me up and make me cry

They're out to get me I want to leave but they won't let me out They're out to get me I want to leave but they won't let me out

They won't forget me They'll get me in their grip and sweat me out They're out to get me I want to leave but they won't let me out

They're out to get me They're out to get me

They're gonna hit me Cuff me up and then bullshit me Then they'll outwit me Dress me up and make it fit me

They'll lock the door now Keep it shut and throw away the key They'll turn the lights out What no one knows, nobody sees

They're out to get me I want to leave but they won't let me out They're out to get me I want to leave but they won't let me out

They won't forget me They'll get me in their grip and sweat me out They're out to get me I want to leave but they won't let me out

They're out to get me They're out to get me They're out to get me

They're out to get me I want to leave but they won't let me out They're out to get me I want to leave but they won't let me out

They won't forget me They'll get me in their grip and sweat me out They're out to get me I want to leave but they won't let me out

They won't forget me
