Today I watched in silence
As people passed me by
And i strained to see if there was something hidden in
their eyes
But they all look back at me as if to say
Life just goes on

The old familiar story
Told in different ways
Make the most of your own journey
From the cradle to the grave
Dream your dreams tomorrow because today
Life must go on

ohh ohh ohh

And there's more to this life,
Living and dying
More then just trying to make it through the day
More to this life
More then these eyes of all you can see
And there's more then this life alone could be

He takes care of his family
He takes care of his work
Every Sunday morning
He takes his place at the church
and sometimes he still feels the need to search
Life just goes on

At night he lies in silence
Starring into space
And looks for ways to make tomorrow better then today
But in the morning light he looks to say
Life must go on

ohh ohh ohhh

And there's more to this life,
Then living and dying
More then just trying to make it through the day

More to this life
More than these eyes of all you can see
And there's more than this life alone could be

Where do we start
To find every part
Of what makes this life complete (what makes this life
complete)
If we turn our eyes to Jesus we'll find
Life's true beginning is there at the cross where He
died
He died
To bring us...

More to this life
Living and dying
More than just trying to make it through the day
More to this life
More than these eyes alone could see
And there's more to this life
Living and dying
More than just trying to make it through the day

More to this life
More than these eyes alone could see
And there's more than this life alone could be

More to this life
More than living and dying
More than trying to make it
Through the night and days
