I was fadin' last night lost out in the cold
Couldn't see the light then she opened up the door
I came in from the dark, fell into her arms
Just in time now I know that I
Left the past behind
Won't let it go

You could tell me tonight
That maybe the world would end
That the sun wouldn't rise
It was gonna rain again
Just as long as she's in my arms
It's gonna be a perfect day

There's a look in her eyes, makes me feel alright
Lights the perfect sky that I couldn't see before
That she helped me to find now that I've seen her shine
I know I'll never be alone
'Cause now I know that I have love I can't deny
Won't let it go

You could tell me tonight
That maybe the world would end
That the sun wouldn't rise
It was gonna rain again
Just as long as she's in my arms
It's gonna be a perfect day
It's gonna be a perfect day

Think I lost you in another life
A part of me that I left behind
I won't go on without you
And now I know that
I have put the past behind
I let it go

You could tell me tonight
That maybe the world would end
That the sun wouldn't rise
And it was gonna rain again
Just as long as she's in my arms
It's gonna be a perfect day

You could tell me tonight
That maybe the world would end
That the sun wouldn't rise
And it was gonna rain again
Just as long as she's in my arms
It's gonna be a perfect day
It's gonna be a perfect day
