You can try to hide away from every drop of rain that's
hanging over you.
And you can say it's all a waste.
Lost your time and space.
There's nothing left to lose.
Like a broken angel on the ground, like a symphony
without a sound.
Turn around.

[Chorus]

Everything you are.
Everywhere you've been.
The sinner, and the saint that fight the battle within.
Everyplace you go.
Everybody knows.
Shadows fall across the sun sometimes.
Shine.
Your gonna shine.

In the mirror of your soul.
I know that you know, you are not forsaken.
Hey butterfly open up your weary eyes, and realize it's
a trip we're taking.
And the world will turn around again.
And your shattered heart is going to mend.
In the end.

[Chorus]

Everything you are.
Everywhere you've been.

The sinner, and the saint that fight the battle within.
Everyplace you go.
Everybody knows.
Shadows fall across the sun sometimes.
Shine.
Your gonna shine.

Baby let's go riding those shooting stars.
Watch the crescent moon smile to your heart.
Shine.

Your gonna shine.
Shine.
Your gonna shine.

[Chorus]

Everything you are.
Everywhere you've been.
The sinner, and the saint that fight the battle within.
Everyplace you go.
Everybody knows.
Shadows fall across the sun sometimes.
Shine.

[Chorus]

Everything you are.
Everywhere you've been.
The sinner, and the saint that fight the battle within.
Everyplace you go.
Everybody knows.
Shadows fall across the sun sometimes.
Shine.
Your gonna shine.
