Oh, oh-oh-oh-oh, oh-oh, oh-oh, oh-oh
Oh every day
Please, we'll thank God it's Christmas comes in every
look a will end
Oh, oh every day
We'll thank God it's Christmas comes in every look a
will end
Oh every day
We'll thank God it's Christmas comes in every look a
will end

So, what she say? Hey, sorry, she'll wrong was sorry
She if I have another one I'm say it won't
So, if I won to the end would you search that sin
I am everyone Christmas see it for you
Every scare the things I love

Oh every day
We'll thank God it's Christmas comes in every look a
will end
Oh every day
They'll thank God it's Christmas comes in every look a
will end

Oh, and she weak, no, will that little chat over there
Feel alone so I did know
Oh, will the life and the friend?
Will the life and or love someone?
Who knew kind or I will take the plane with that one?

Oh, Santa, say, she was sorry I said "Hi"
I need another one, I'll say it once more
Oh, who would to the end would say such that say
Proud of everyone Christmas see it for you
Every scare the things I love?
