I've walked along a hundred highways,
Some I wish I could forget.
And I've burned a lot of bridges,
But there's not one that I regret.
Cause every path I've taken,
They all have led me to knowing my place,
My place is with You.
I've had my promises forsaken
Into many empty words.
And I'm amazed and so astounded
That I won't get what I deserve.
Whatever lies I've lived for,
I have finally found the truth.
I know my place, my place is with You.
You are my treasure forever,
The one dream I've searched for.
I've not been given my tomorrow,
I'm only certain of today.
If I don't see another sunrise,
I will not have to be afraid.
I know we will be together,
When all my days are through.
I know my place, my place is with You
