So many preachers
So many churches and denominations
Got their opinions and their documents
And statements and beliefs and sometimes
There's a miscommunication

And we complicate the truth
And convolute the story
But as far as I recall
I do believe it all

Comes down to a man, dying on a cross
Saving the world
Rising from the dead
Doing what He said, He would do

Loving everyone He saw
When it's said and done it all
Comes down to a man, dying on a cross
Saving the world

That's what He says

It isn't a secret
Yeah, I'm being simple minded
But it's about Jesus and a way, a truth, a life
That can change a heart and a soul forever
And we need to be reminded

Well, it's the power of the blood
That brings us to redemption
We can rise above the fall
And the reason for it all

Comes down to a man, dying on a cross
Saving the world
And rising from the dead
Doing what He said, He would do

Loving everyone He saw
When it's said and done it all
Comes down to a man, dying on a cross

Saving the world

All the people beneath the steeple are just reaching
For the truth that can save a helpless soul
We wrestle with the mystery in the teaching
But the news is all good, I think that we should,
remember one thing

Comes down to a man, dying on a cross
Saving the world
And rising from the dead
Doing what He said, He would do

Loving everyone He saw
When it's said and done it all
Comes down to a man, dying on a cross
Saving the world

Comes down to a man, dying on a cross
Saving the world
And rising from the dead
Doing what He said, He would do

Comes down to a man, dying on a cross
Saving the world
And rising from the dead
Doing what He said, He would do

Comes down to a man, dying on a cross
Saving the world
And rising from the dead
Doing what He said, He would do
