We were green as grass when I took your hand  
And the whole world held its breath  
'Cause you don't look down when you step out on faith  
Now I take pride that we've stood by  
Those sacred words we said  
Even though it hasn't all been sunny days

We've been eye to eye with a full fledged hurricane  
Seen the water high and felt the winds of change  
But like a rock we stood strong, side by side through it  
all  
Now we don't fear those cloudy skies  
'Cause baby, you and I got a love, come rain or shine

I've placed the blame and you've cursed my name  
There were many times  
Lightening cracked and thunder shook our door  
I know our life ain't been some kind of perfect paradise  
But baby, we can weather any storm

'Cause we've been eye to eye with a full fledged  
hurricane  
Seen the water high and felt the winds of change  
But like a rock we stood strong, side by side through it  
all  
Now we don't fear those cloudy skies  
'Cause baby, you and I got a love, come rain or shine

We don't fear those cloudy skies  
'Cause baby, you and I got a love, come rain or come  
shine
