They don't ask 'cause they know I'll say  
It ain't nothin', just another woman done walked away  
Still on track, no, I ain't phased  
I rock on all night long, just playing this masquerade

I got everybody thinking, I'm Superman strong  
But that big ole "S", ain't on my chest

At night when I get home  
And one look at my reflection and lone is all I see  
I can tell 'em all that I'm glad you're gone  
But the truth is, I can't lie to me

Call you up to get shot down  
Throw my pride aside and I just cry out loud  
Call my bluff, now just look at me  
A fool in love and all tore up  
Down here on my knees

I got everybody thinking, I'm Superman strong  
But that big ole "S", ain't on my chest

At night when I get home  
And one look at my reflection and lone is all I see  
I can tell 'em all that I'm glad you're gone  
But the truth is, I can't lie to me

I got everybody thinking, I'm Superman strong  
But that big ole "S", ain't on my chest

At night when I get home  
And one look at my reflection and lone is all I see  
I can tell 'em all that I'm glad you're gone  
But the truth is, I can't lie to me
