Maybe it's been just one of those days  
When I've had about as much as I can take  
I've tried so hard, tried so hard to be good  
But the world just threw it back in my face

Pick yourself up, dust yourself off  
Just in time for the next kick in the teeth  
And if I find one tiny bit of release  
They'll try to cure me like I'm some kind of fucking  
disease

Slammed by the wrecking ball once again  
I'm driven into the concrete  
I'm getting used to the taste of dust  
But I'm still standing on my own two feet

This time I'll show them all

I'll lose it all in drink and drugs  
Just to ease a little bit of the pain  
You disapprove but I don't give a fuck  
Sometimes I got to escape or I'll go insane

They've kicked me like a scolded dog  
And all I ever did was laugh  
Told me a thousand times to bow  
But I'll bow to none, they should know by now

I'll bow, I'll bow to none

I'm tired of crawling over broken glass  
Tired of choking on my teeth  
This time I'll take matters into my own hands  
Nothing will ever break me again

This time I'll show them all

(So fuck them, fuck them all)  
They'll never break us, we'll never conform  
(So fuck them, fuck them all)  
Never chain us with their fucked up laws

(So fuck them, fuck them all)  
I am too proud, you'll never see me crawl  
(So fuck them, fuck them all)  
Destroy the lies, their pride will fall

There's a million whores in Ivory Towers  
And I'll fuck every one some day  
I'll kill again and again  
Better to burn out than fade away

You'll never fade away
