Obscure oppression, from within  
Controlled behaviour  
Mass suppression in complex systems  
Dictate before the birth

Chorus:  
Underlying confusion  
Life breaks free  
A mournful expansion  
Saneless theory

Those detractors unnatural order  
Erratic recursion of thought  
Irrational change, the aspect of life  
Chaotic order sought

(chorus)

Regularity / random  
Fractal complexity  
Witness sterile fluctuation  
Saneless theory

Rulking powers assimilate  
Overshadow, subjugate  
No predictions an unfound dream  
Egress reality

Yet devotions are amplified  
Into chaotic theme  
Enter chaos!

Their passionate numbness  
Ascetic credibly  
Hidden in the emerging field of  
Saneless theory
