Clayton Risner
"C'mon"

{Verse 1}
Who ever said it would end your own way
But now you're telling me, it was always part of the game

{Chorus}
When the lights go down in the city, don't be looking up for no pity.
You come you go and you know that what you had was gold

You're mind is tripping your own mind, you're the one that's wasting your own time
Whoa……

{Verse 2}
You left me to believe
That two loving minds will never achieve
Maybe you are right, but still I don't agree.
You see, too much is too much for me

{Chorus}
When the lights go down in the city, don't be looking up for no pity.

You come you go and you know that what you had was gold

You're mind is tripping your own mind, you're the one that's wasting your own time
Whoa…….

{Bridge}
Come on ……. say you've got to be kiddin me.

{Chorus}
When the lights go down in the city, don't be looking up for no pity.
You come you go and you know that what you had was gold

You're mind is tripping your own mind, you're the one

that's wasting your own time
Whoa ………
