Your skin your breath and I touch you with your
thousand memories
And I feel your song smoothly into my ears can't take
my eyes away from you

I'm speechless I gotta get to you and take your hands
and kiss
I'm so sad and blind I feel no goal and where is my soul
and sense
I'm speechless I gotta get to you and take your hands
and say
I'm so lost but feel I make no sense and still cannot do
anything

You live without me and then my pain deep into my
body and soul
And I cry so loud to send my mind away please wake
up and then take my hand

I'm speechless I gotta get to you and take your hands
and kiss
I'm so sad and blind I feel no goal and where is my soul
and sense
I'm speechless I gotta get to you and take your hands
and say
I'm so lost but feel I make no sense and still cannot do
anything
