Mind Games  
Mind Games

Late at night and the lights are low  
And I think I know that you're watching me  
Take the chance I make the glance cos  
This temptation is killing me  
If I turned my head and smiled at you  
I could loose a love that once was true  
You look so fine and you're on my mind  
This time I know I'll make you mine

My body's saying yes and my heart is saying no  
These feelings deep inside boy I'm gonna let you know

Mind games - are you playing  
Mind games - it's all up to you now  
See how far we go tonight  
Your love, I can't get enough of  
It's all up to you now  
So let go don't let go baby

I can't resist that fatal kiss  
As I feel your body move close to me  
Don't stay away my mind will say  
I'm in too deep so I'll give it away  
I feel your hands caressing me  
It sets my soul and my body free  
I'm thinking bout a man I know I  
Feel it's time that I let go

My body's saying yes and my heart is saying no  
These feelings deep inside boy I'm gonna let you know

Mind games - are you playing  
Mind games - it's all up to you now  
See how far we go tonight  
Your love, I can't get enough of  
It's all up to you now  
So let go don't let go baby

Mind games your game your love can't get enough  
Mind games your game your love  
Mind games your game your love can't get enough  
Mind games your game your love

Mind games - are you playing  
Mind games - it's all up to you now  
See how far we go tonight  
Your love, I can't get enough of  
It's all up to you now  
So let go don't let go baby

Mind games  
Mind games  
Mind games your game your love can't get enough  
I like to know yes I like to know what you want  
Mind games
