Warm light
Burns from the lamp on my shelf
Awake to write
Meanwhile the world destroys itself
And myself now longs to see the place

At the end of the day (When the garden is regained)
At the end of the day (Perfect light won't be replaced)
At the end of the day (I'll see my God face to face)
At the end of the day

My friend
Attacked and torn and left bare
The Son of Man
Is coming home and He'll repair
Repair all the damage and the pain

At the end of the day (Every tear He'll wipe away)
At the end of the day (No more dying, no more pain)
At the end of the day (You'll see your God face to face)
At the end of the day

River of the water carrying life
Split the trees
Budding leaves will grow ending all strife
Bringing peace

At the end of the day (Nations bound by the grace)
At the end of the day (Holding hands, we'll bow and praise)
At the end of the day (We'll see our God face to face)
At the end of the day
