Lately I've been thinking about this crazy life I live  
All the things that I've been given  
And just what I have to give  
Oh I may not be a rich man in a lot of people's eyes  
But I found the treasure I can share  
Inside this heart of mine

#### CHORUS

Oh I'd like to be remembered by the smiles on your  
face  
And if troubles come to find you you can always look  
my way  
I will be right there beside you as you travel down life's  
road  
I hope I leave you laughing when the curtains close

I'd like to give you silver around your clouds of gray  
Some gold that you can cling to and the memories we  
made  
And if by chance tomorrow Heaven's angels call  
And I go on before you to the greatest show of all

#### CHORUS

A merry heart would make good medicine the Bible  
tells us so  
That's what I try to bring to you at each and every show

#### CHORUS

I'd sure like to leave here laughing when the curtains  
close
