[Well you see you can't put all history in the book,  
so you got a lot of history that is not in the book that is  
valuable  
and sometime it is more valuable then the history that  
is in the book.]

[Benefit]

I speak to a chosen few  
Who impose a view  
Held by common man, my proposal grew  
I love independent thought seeds  
Planted righteous roses but the world brought weeds  
Any man who fought creeds In history in wicked ways  
Felt pain when I bleed while living in the sickest days  
Viscous plays with secretive scenes and acts  
Lies laid like train tracks to cover up seen facts  
Green bags perpetuate the playwrights  
Money makes a setting change from night to daylight  
Its all allusion with trick mirror reflections  
At people's choice awards or presidential elections  
Deception hidden Like a serpent in the cracks  
To watch a play it cost you with 7 % tax  
??? ??? ??? habitual greed  
The forbidden tree is grown out of a capital seed  
If it's shaken roughly you watch the power unravel  
The spotlight shines from the tower of babble  
It burns people so they'll always find a means  
To keep hidden what goes on behind the scenes  
Currency flooding so they wont stop inflation  
The masses are subdued by media propagation  
Proclamation of waste, they're throwing you away  
Well the law sheep flock their going to the play

[Chorus - 2X]

History has shown us a power in greed  
Devour indeed fallen in an hour of need  
A flower will breed just shower the seed  
A coward will bleed  
This is my creed listen, behold, and take heed

[Benefit]

A global theater with an enormous performance  
With lonely stage hands with military indolence  
Be super conscious a subliminal fact is built  
You like the play join the political act is guilt  
And learn how to fake what you feel with snake appeal  
Then rob the poor's pockets every time you make a  
deal  
Taking steal under the guise of just cause and trust  
laws  
Manifest acceptance as a audience applause  
A river of greed its an undisrupted flow  
While civilian police are nothing but a puppet show  
Let the trumpets blow, signaling the opening act  
Pull the curtains back an unseen open in tact  
Let the true light refract and reflect like a prism  
While monopoly's unlawful in direct communism  
I'm secretly having my freedom stripped  
Meanwhile ??? political parasites read a script  
You walk with a smile even if you hate it  
Ignorance allows the audience to be manipulated  
Stated innocent, really guilty hitting criminals  
Children are deprived of basic vitamins and minerals  
Lies contracting deals of subtracting bills  
No truth found only good acting skills  
Check the dollar bill under the pyramid in Latin  
New world order exists draped in black satin

[Chorus - 2X]

History has shown us a power in greed  
Devour indeed fallen in an hour of need  
A flower will breed just shower the seed  
A coward will bleed  
This is my creed listen, behold, and take heed

[Benefit]

I plead that my voice is heard with the choice of words  
To stimulate like the moistest herbs  
Poisonous observe venomous on real reality  
Of surreal gallery with the phony actuality  
Politicians taking drama classes to promise actions  
Succeeding in eliminating honest factions  
A continuous play with no intermission  
Executive decision lead into wicked wishing  
A crooked Christian will help you show you to your seat  
And steal your wallet and say "I owe you a receipt"  
Slow deceit is upon us its the hour of the losing  
And writing script ideas into our constitution  
Evil intrusion makes a breaking and entering  
On the united front the faking is centering  
Take it and spend it with welfare landing  
Inevitable effect is healthcare ending

Scene 6 Act 6 Script 6

The plays displaying devilish characteristics  
The show goes on, you can't keep the play waiting  
The poor pay the rich and the rich pay satin  
I uphold my Constitutional right to fight  
Speak words of light to ignite in sight  
Its all relative to your life certainly I suppose  
If you open the truth you make the curtains close

[Chorus - 2X]

History has shown us a power in greed  
Devour indeed fallen in an hour of need  
A flower will breed just shower the seed  
A coward will bleed  
This is my creed listen, behold, and take heed

[Now wait a minute, somebody's holding their head up  
saying they did  
and somebody's shaking their head  
Saying they didn't make no history yesterday.  
Everybody in here made history yesterday.]
