Listen here you're not bad, you'll be better  
you're a lonely boy, take some gum  
See the class,  
you're in front with the bitches and boys who play  
house,  
let it go.  
Didn't it amaze how we played, give it away,  
there's no war  
there's no escape

Chorus:  
Come to grips with me  
get a grip you see  
Come to grips with me  
get a grip you see

That's why I'm glad to say realize everything's for you  
That's why I'm glad to say it's the best things for you

Little girl on the field, just unfair  
it's about the time, let it go  
Even though you ??? ???3 at the hockey club  
getting down

Chorus

That's why I'm glad to say realize everything's for you  
That's why I nod and4 say realize everything's for you

In my mind, there lies the victim  
I'm paralyzed by all the wisdom  
(the wisdom)  
I'm knocked out babe, if you for what reason?

That's why I'm glad to say realize everything's for you  
That's why I nod and4 realize everything's for you

That's why I'm glad to say realize everything's for you  
That's why I nod and say it's your destiny, it's ??guff??
