So lovely the blue sky looks and so lovely the things  
around.  
See love glittered my eyes and happiness surrounds.  
It seems in a moment everything has changed like a  
lovely world I found.  
Whispering in my ears when you say all lovely things  
You know baby how lovely your words sound  
In a moment my world has turned around  
I got a lovely world, yeah a lovely world that I found.

Sometimes life seems so new  
Sometimes I don't live in a world that I knew  
Sometimes even living in plenty, i see only a few  
Baby my life is changed by you  
So life seems so new, yeah it's true  
You changed my life baby, it's only you

Baby you sat by my side  
See there is no feeling left in my heart to hide  
Baby you shined my life and now you r my meaning of  
life.  
When you were not in my life, life was so dry  
You came like an angel to give a new meaning to my  
life.

Now every dream that I dreamt turned true  
The girl of my dream is only you  
Hey now my world is our world and so it looks so new  
Baby take my everything, take all my love  
It's for you, baby my love is for you.
