Don't let hurricanes hold you back
Raging rivers or shark attacks

Find love, and give it all away
Find love, and give it all away

Wrestle bears bring them to their knees
Steal the honey from killer bees

Find love, and give it all away
Find love, and give it all away

Don't be scared to connect the dots
And dig for gold in the parking lot

Find love, and then give it all away
Find love, then give it all away

Find love, then give it all away
