Even if you say that you don't believe me
Your eyes are deeply fallen inside of mine
You're the only person with all the things I want in you
You and me, we get along pretty well just like a couple

I can tell your heart by now
You don't want to fall into me so easily
But I'll promise you
Tonight, there will be nothing that you will regret

*don't hide it, come to me
I want to know everything about you
Don't stop it, leave it to me
You don't know yet,
So give me a chance and believe in me

Get over all the other things that you see
But just look straight into me
Try to feel my heart and not anything else
I don't think I am able to breathe when I'm with you
But why are you trying to be so distant from me?
Why did you give me that mysterious smile
When you didn't know how I felt about you?

Repeat *

[Rap]
Shining 'll be never stoppin bring the noise participate
Don't bring to a stop to the top
Bring bring the noise participate
4, 3, 2 to the 1 go!

I can tell your heart by now
You don't want to fall into me so easily
But I'll promise you
Tonight, there will be nothing that you will regret
