From when I decided to live like that  
I had to learn to live like an adult  
Even if our world is not pure  
When I was quite young I tried to act like an adult  
To be like a grown-up from my way of thinking  
I dreamed of honesty... I'm sick of it

I wished to live only for money  
That's how I was here  
The sin was my poor thoughts that you could see in me  
Finally satisfaction is a thought of you  
You probably don't want to care for me  
I can't be against it  
If I'm removed from you I'll live  
But in another world now I can't be caged in

⌘⌘

Break it break it, One thing repeated without an end  
Break it break it, Where's the world going to?  
Break it break it, our dreams are lost  
Break it break it, we can make it make it, uh

Break it, everything surrounding me is lies  
Break it, respect is the master of everything in this  
world  
We can take it all, we want it  
Break it break it, we can make it, make it, uh

⌘⌘ Repeat

I've wandered into days of sadness and tiredness  
In the uncomplicated world my dreams were not pure  
I've lost the place where my dreams can be free  
But we can't hesitate  
Now my heart must make a stand  
The future and I'll care for it all  
Everything will become one  
You must see it in my eyes

Lies, break it  
Poverty, break it  
Hatred, break it

Pain, break it

I thought too late that my heart would break  
I didn't know this was the end  
My last hope remains too far away, too late  
The master of the world would be us  
Yes, we should become one  
I can't remove all the lies from this world  
I can't move them away from me  
I know well, I'm okay  
Maybe that's how it is, uh  
Until it is not so far away

£ Repeat

I've wandered into days of sadness and tiredness  
In the uncomplicated world my dreams were not pure  
You turned back around to me when you were tired  
I was tired... I went mad... I was ruined...  
But in this world I wasn't pure  
I won't go down the street that you want  
Now I'll fly away searching for myself

Break it break it break it break it break it break it  
Break it break it, we can make it make it uh  
Break it!
