Visit "[Down To The Underground](#)" on MotoLyrics.com

Down down, down to the underground

Down down, down to the underground

Down down, down to the underground

Down down, da-da-da-down

You say you know it

I say it's true

You say you want it

So come along and get there too

I want to be there

I want it to

I want to know it

So take me down with you

Don't try to hide it

You want me to

Don't you deny it

There's nothing you can't make me do

I want to feel it

It's over due

I want it now

So take me down with you
