"Everything Must End"

Why do you walk in the dark?
Do you pray for the the day?
Can you find a way?

Can you feel the sunshine?
Can you see the light?
Can you live for tomorrow?
Everything must be right

We can be lovers
We can just be friends
We can be selfish
Everything might end

Are you alive or are you dead on your feet?
Can you feel the moment?
Can you deal with the pain?

Can you feel the sunshine?
Can you see the light?
Can you hold on forever?
You've got nothing to fight

We can be lovers
We can just be friends
We can be selfish
Everything must end
