Time on my hands and you on my mind
I want you here 'cause I'm weary without you
You don't understand that I'll take the blame
For my restless nature I want to be with you, whatever

One day, still feeling alone
I'm getting nowhere and I'm far from home
I'm alive, one day at a time, that's my life

Hand on my heart, it's you that I need
I serve my purpose then I'm ready to leave

One day still feeling alone
I'm getting nowhere and I'm far from home
I'm alive, one day at a time, that's my life

One day still feeling alone
I'm getting nowhere and I'm far from home
I'm alive, you're still on my mind, that's my life
